

Adding Films on Demand Video to a Course

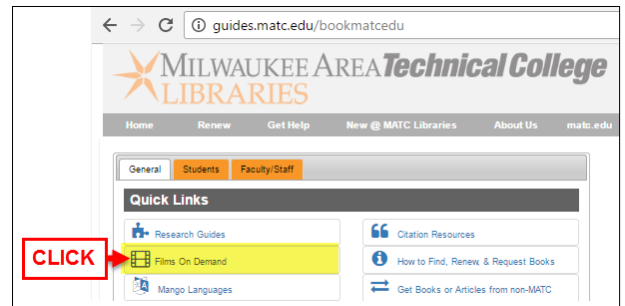

Faculty Support
eLearning

Creating & Managing Content

Through MATC's subscription to **Films on Demand**, instructors can have access to an up-to-date, cross-curricular library of over 6,000 high quality digital videos. Instructors can choose to share links to a whole video or just particular segments of a video with their students in Blackboard.

Accessing Films on Demand

Visit the MATC Library Website <http://guides.matc.edu/bookmatcedu>. On the library home page, click the **Films on Demand** quick link.

Finding Videos

On the **Films on Demand** Website, you can browse for videos by subject collection or use the search bar and advanced search tools to find videos matching your criteria.

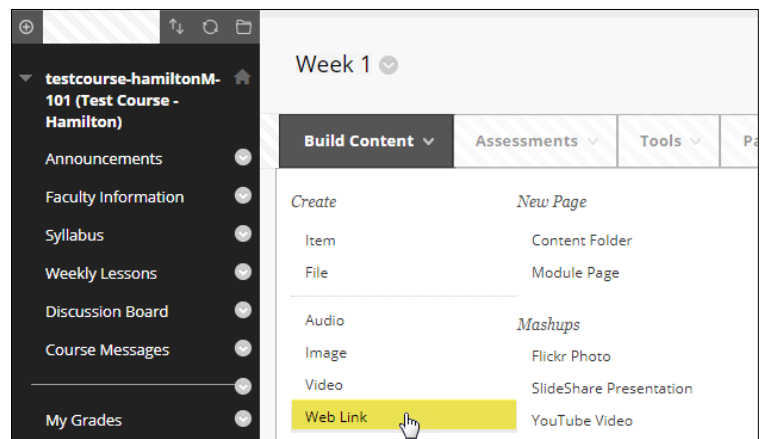

Adding a Video to Your Course

Creating a web link is the **most accessible way** to share the video with your students in Blackboard.

1. When you are viewing the video, click the **EMBED/LINK** option that appears beneath the video. In the form that appears, click the **COPY** button. This copies the video's **RECORD URL**.

- Next, go to your **BLACKBOARD** course. In your course, navigate to the content area or folder where you want to share this link (Example: Week 1). Within this content area, roll your mouse over the **BUILD CONTENT** button and click **WEB LINK**.

- On the **CREATE WEB LINK** page, give the link a name and paste the copied link into the URL text-field. As a best practice, add some instructions and a citation to the **DESCRIPTION** text-field. When done, click **SUBMIT**.

 A screenshot of the 'Create Web Link' form. The 'Name' field contains 'The Raven and The Philosophy of Composition'. The 'URL' field contains 'https://go.openathens.net/redirector/matc.edu?u'. Below the URL field is a checkbox labeled 'This link is to a Tool Provider. What's a Tool Provider?'. The 'DESCRIPTION' field contains a rich text editor with a toolbar and the following text: 'View this video. Then, review and compose a response to this week's discussion topic.' Below the text is a 'Citation' field containing a detailed citation for 'THE RAVEN and THE PHILOSOPHY OF COMPOSITION by Edgar Allen Poe - FULL AudioBook | GreatestAudioBooks.'

- The result should look something like this, a URL link that students can click to view the video on the Films on Demand website in a new browser window.

URL Sharing Trouble-Shooting Tips

- When you are copying and pasting the URL in Blackboard, do not include any additional spaces at the end of the URL. The extra space at the end could cause problems opening the link in some browsers.
- Always test your links to ensure that they work before giving them to students.

Please Note: If you or your students attempt to view the *Films on Demand* Website or access a *Films on Demand* video from an off-campus location (outside the campus's IP Authentication Range) a login prompt may appear:

- If the student sees an **MATC Library login form** when trying to view a Films on Demand video, the student must complete the form with his/her:

- **First and Last Name**
- **MATC ID**

The screenshot shows the top of the Milwaukee Area Technical College Libraries website. Below the navigation bar, there is a 'Login' section with a yellow background. It contains the text 'Please enter the following information:' followed by two input fields: 'First and Last Name' with a placeholder example 'Jane Smith' and 'MATC ID number' with a placeholder example '9876543'. A 'Submit' button is located at the bottom of the form.

- If you see a **Films on Demand login form**, you may use these login credentials to access the site or create your own login username and password:

- **Account ID:** milwautech
- **Password:** digital

The screenshot shows the 'FILMS ON DEMAND' logo at the top, with the tagline 'DIGITAL EDUCATIONAL VIDEO'. Below the logo, the text 'ACCOUNT LOGIN' is displayed. There are two input fields: 'Account ID/Email' and 'Password'. A blue 'LOGIN' button with a right-pointing arrow is located to the right of the password field.

By creating your own account, you get the benefit of creating and sharing custom playlists of videos.
