

Discussion Board Reverts to List View

Known Issue

Instructors and students may notice that, when they view a discussion forum, the threads always appear in List View. If one clicks the Tree View link to view threads in this view, then exits the course, the next time they view the course's forum it will revert to List View mode. To return to Tree View mode, one must click on the Tree View button.

<input type="checkbox"/>	Date	Thread	Author	Status	Unread Posts	Replies To Me	Total Posts

Blackboard has acknowledged that this is a known issue that will be addressed in a future software update. There is no workaround at this time.
