

# Grades in Blackboard Inconsistently Round to 5 Decimal Places

Known Issue

When students view the *My Grades* tool to see their assessment grades in a course, all grades will be displayed up to 5 decimal places.

**My Grades Tool - Student's View -**

### My Grades

All Graded Upcoming Submitted Order by: Course Order

ITEM	LAST ACTIVITY	GRADE
Total <a href="#">View Description</a> <a href="#">Grading Criteria</a>		<b>208.00000</b> /210
Assignment 1	Oct 9, 2017 12:53 PM GRADED	<b>100.00000</b> /100
Assignment 2 Assignment	Oct 9, 2017 12:53 PM GRADED	<b>98.00000</b> /100

However, when instructors view these same grades in the *Full Grade Center*, the grades might be rounded to less than 5 decimal places.

**Full Grade Center - Instructor's View -**

Last Name	First Name	Total	Assignment 1	Assignment 2
Asterisk	Annie	208.00(99.04762%)	100.00	98.00

Blackboard Client Support has acknowledged that the *My Grades* tool is *functioning as designed*, but the 5 decimal rounding is being inconsistently applied throughout the system. This will be addressed in a future software update.

*There are no workarounds available.*
