

Import Process Changes Course Name

Known Issue

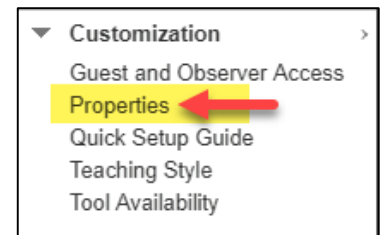

When performing an [import process](#) to bring archived material into a new course, the instructor may sometimes experience that the course's name may change to that of the archived course. Blackboard acknowledges that this is a software defect that will be resolved in a future update.

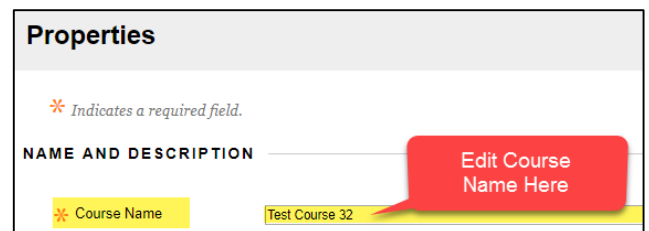

Recommended Action

Instructors may edit the *course name* property of a course in Blackboard through these steps.

1. When viewing the course as instructor, scroll down to the **CONTROL PANEL** and select **CUSTOMIZATION**. In the menu that appears, select **PROPERTIES**.

2. On the **PROPERTIES** page, edit the **COURSE NAME** field according to your preferences.

3. When you are done, scroll down to the bottom of the page and click the **SUBMIT** button to apply your changes.
