

Quick Start Guide for Students

Welcome to TechSmith Knowmia (formerly Relay)! Your school has a new tool for creating and sharing videos, and your instructors may begin using it your coursework. Below you will find instructions on how to access your TechSmith Knowmia account and begin creating videos.

What is Knowmia?

Knowmia gives you an easy way to create and store video content for your classes. You now have access to:

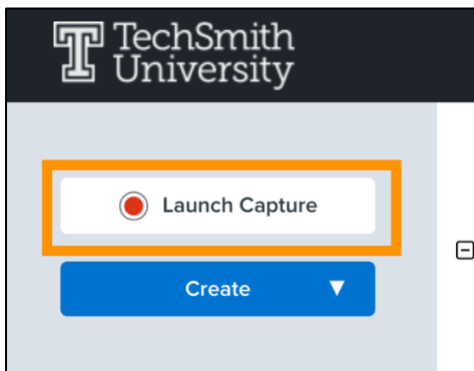

- An online library where you can store as many videos as you'd like.
- A web-based recorder to easily create new videos of yourself and your screen.
- An simple way to add a threaded Conversation to any video.
- A free mobile app (**TechSmith Fuse**) that allows you to import any video content from your phone right into your Knowmia Library.

Step 1: Login

- Go to your school's Knowmia site: <https://matc.knowmia.com/>
- Click '**Sign In**'.
- Login using your campus credentials.

Step 2: Record a video!

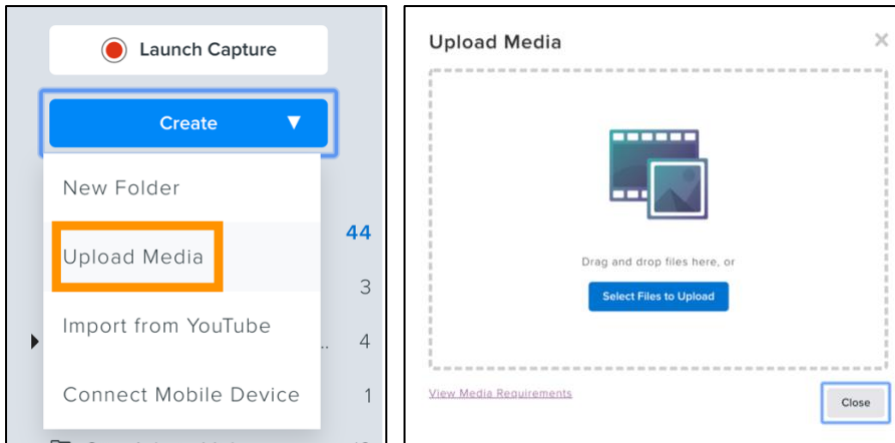

- You should now be in your personal Knowmia library.
- Click the **Launch Capture** button to create a NEW video.

**Note: you may have download the recorder the first time you use it.*

Step 3: Upload Videos

- If you have old videos you'd like to upload to your library:
 - Go to **Create > Upload Media**

- You can also Import from YouTube just by having the YouTube link.

Step 4: Share

- Send a video URL to quickly share a video.
